

## Life Skills Cross Cat. (Hahn)

|                                                |                                                                                                                                                          |               |           |
|------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|-----------|
| Course                                         | Life Skills (Hahn)                                                                                                                                       | Week Assigned | May 11-15 |
| Lesson Title                                   | Air Masses                                                                                                                                               |               |           |
| Teacher(s), Email, & Other Contact Information | Ms Stell-Hahn<br><a href="mailto:LSTELL@fUSD1.org">LSTELL@fUSD1.org</a><br>(928)221-7828 Cell                                                            |               |           |
| Target Standards                               | E1: The composition of the Earth and its atmosphere and the natural and human processes occurring within them shape the Earth's surface and its climate. |               |           |
| Learning Goal                                  | Understand what an air mass is, and how they are classified, Name the four air mass types.                                                               |               |           |
| Essential Questions                            | Where do air masses form in the United State?                                                                                                            |               |           |
| Learning Activity                              | Nearpod Activity - Air Masses                                                                                                                            |               |           |
| Resources                                      | Code: BLWUN <a href="https://share.nearpod.com/vsph/VQJUIAXSLu">https://share.nearpod.com/vsph/VQJUIAXSLu</a>                                            |               |           |
| Extension & Enrichment                         | Draw a picture showing one (or more) of the air mass and state the type of weather it causes. For example, hot and humid - think tropical)               |               |           |
