

Hello, this is more or less an automated message.

If you receive this that means one or multiple of the following:

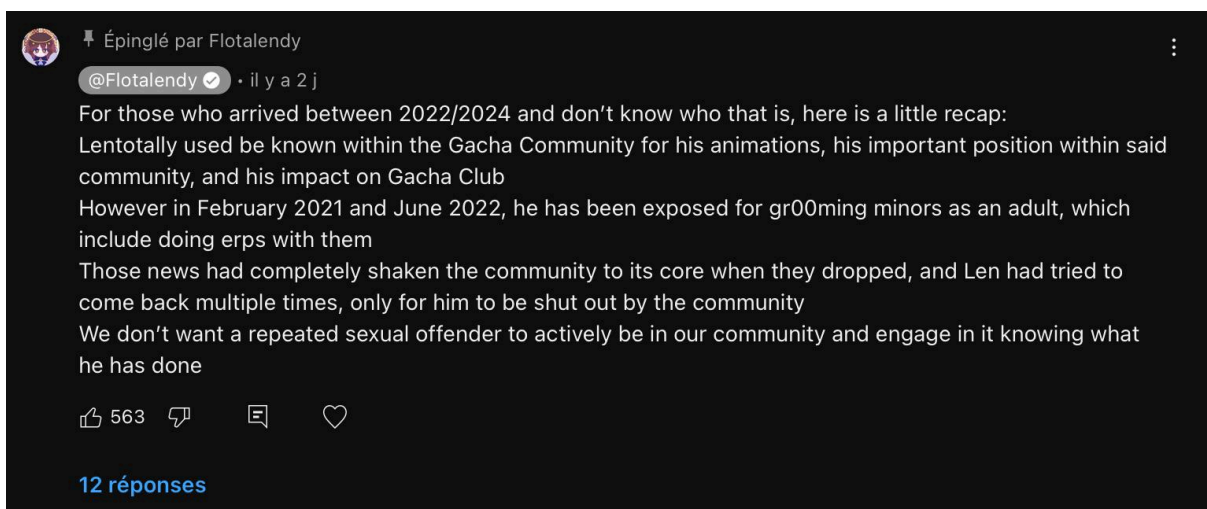

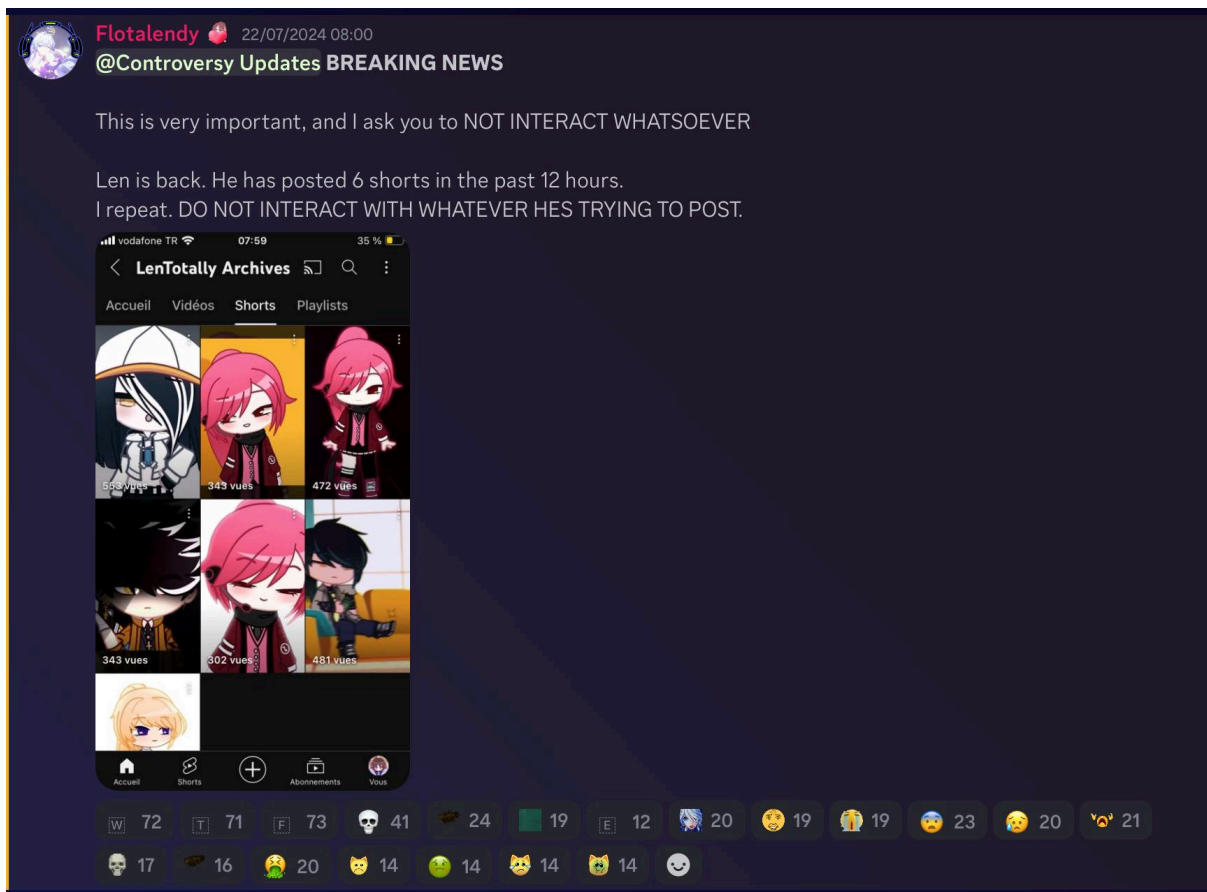

- *You probably used to, or still do, have some important influence and impact on the Gacha community*
- *You know/knew the actors mentioned in this message*
- *Your knowledge might help me, even if it seems insignificant or unrelated to you*
- *You know how to act/respond with honesty and maturity and be discreet when needed*

I don't usually do such things, I myself believe it is very bold and rude to just barge in people's dms like that. But I'm afraid this is very important.

For those who don't exactly know me, I'm Flotalendy, but do refer to me as Flo for convenience and comfort. I'm a Gachatuber who specializes in news reporting, commentary, rants and exposes related to the Gacha Community. I'm mainly known to have participated in Gacha Life 2 regarding Gachatuber presets and update related notices, or big exposure videos, which are too many to count.

TW: Before we proceed, I'd like to warn you about the topics that I'm going to discuss with you. Please take your time to read and don't rush, as I'll be mentioning **Len and his grooming activities**... a lot. Soon enough you'll be able to understand why I'm coming towards you.

Recently I mentioned to my community that Len has started being active again, by reposting old videos but in a short format. I asked my audience to avoid interacting with him in any shape or form, also reminding the new generation of what he had done years ago.

Soon enough, an anonymous person had reached out to my discord with a confession letter, which left me in utter shock. I'll obviously link a copy of the full confession letter if you are interested in the details, but if you have a short attention span, I'd be glad to summarize what I read and get told slightly later.

[Copy of Confession Letter](#)

1) Len wasn't alone before June 2022

In June 2022, Yohan and Poison, two of Len's childhood best friends, came forward to expose Len for grooming a 17-year old. He used an alias, by the name "Antagonist", to blend in with the community, and made Gacha animations along with what was the beginning of a series, and that for a year before being caught. Even after the original events with Sophia, he still attempted to come back under a new name and acted like nothing happened.

Video in question: [STOP SUPPORTING LENTOTALLY/XYNISTER](#)

For 2 years we were told that it was Len's sole decision to come back, that he had no intention to drag others down with him. However the confession letter told me otherwise.

Len had formed a team, named "Team Antagonist", alternatively "Squad Annetagonist", which was composed of writers, animators and voice actors, to kick off Len's new journey. To my surprise, it was right under our noses when Len tried to upload Minecraft videos exactly 2 years ago.

THANKS FOR WATCHING

With that in mind, and without a shadow of a doubt, Len didn't act alone, and for a year, without the community's knowledge, was helped to rebuild his brand.

2) The experiences within Team Antagonist

Now that we know the group by itself did exist at one point, the confession details a bystander perspective of what was going on within the team. However, no proof was provided, and the anonymous user who reported me this matter is desperately looking for other people who saw and can corroborate their story with more than just their word.

According to the letter, everyone within Team Antagonist was manipulated and gaslighted into believing that Len's actions on Sophia were "a mistake" and to trust in Len's redemption. The vast majority of the members were minors, with a few adults as an exception, including Len. They were/are known to be very kind, patient and forgiving, hence can easily be taken advantage of and silenced if needed.

Len would compliment his members only to mistreat them later on and do empty promises, all that for his own benefit. When one would speak up regarding such behaviour they were immediately shut down by the higher ups of the team, mostly composed of the few adults present.

Team Antagonist didn't know about Len's behaviour with the 17-year old until June 2022, when Yohan made his video. Yet, they weren't mentioned or associated in the video, and so, instead of telling Yohan or Poison, and to avoid their name and reputation to be found and tarnished respectively, Len and the higher ups deleted all traces of their involvement and asked the remaining members to not tell a soul about their experiences within the group.

What possibly is the worst thing I got from this confession letter...

3) Len groomed a 12 year old child within Team Antagonist

Once again, no proof, just their word. However it is the main reason why I'm coming towards you for help.

Throughout the existence of Team Antagonist, a 12 year old got introduced to the group. At first they lied about their age to fit in and avoid the Discord ToS to be applied, but as time went on, everyone within the team knew their true age (being 12) and accepted her. However, according to the confession letter, things started to become uncomfortable for some of the members, mostly because Len would openly flirt with the 12 year old in front of everyone. Len would take advantage of her situation and would ask that child to follow him in private messages to continue their conversations multiple times. And if anyone would question that in particular, they were put aside by the higher ups and were told that "Len wouldn't do such a thing" and to let it be.

Apart from those instances, not much was known about the child. All we know is that today, they are 14 years old, and very likely isolated and afraid to speak up. This case is one of the main reasons why the higher ups of Team Antagonist chose to hide everything.

And finally...

4) Some ex-members of Team Antagonist who helped the cover up... are still within the Gacha Community

Posting content like nothing happened, acting like nothing happened, and yet, they chose their career over protecting a 12 year old child who got groomed by Len or telling Yohan and Poison everything they saw. They chose to ask the witnesses to not speak against them. Which is absolutely disgusting to hear. The anonymous bystander who confessed refused to give me names, in hopes whatever they saw is false, and that there is maybe... maybe a reason why they made such choices.

This is where my leads got me so far, and without evidence or other testimonies to back it up, I'm reaching a dead end.

That is why I'm asking for your help. If you have any informations or suggestions that could help me progress and reach the truth, I would really appreciate it. Justice needs to be done for those affected by such mistreatment from Len and those who helped him. Justice needs to be done for that 12 year old.

If you did not receive this message from me directly, that's okay! You can find my socials right here:
