

Pika Release Notes 2017.05.0

Released June 7, 2017

New Functionality

- Symphony API Implementation for Anne Arundel (also applies to Horizon libraries)
 - View a list of checked out titles
 - Renew a checked out title
 - View a list of holds
 - Freeze/Thaw holds
 - Cancel Holds
 - Change Hold Pickup Location
 - View Account information
 - Change Account information
 - Reset PIN (forgot PIN)

The screenshot shows a login form with the title "Login to your account". It contains two input fields: "Library Card Number:" and "PIN:". Below the PIN field, there are two links: "Forgot PIN? Reset My PIN" and "Don't have a library card? Register for a new Library Card.".

- Change PIN within Account
 - View Fines
- CARL.X implementation for Nashville
 - View fine details
 - Renew All Holds
 - Update Format determination based on the most used item type in the event conflicting item types are found.
 - Upgrade Pika server to RHEL 7
 - Final implementation of Masquerade Mode based on CARL.X implementation
- Prep for Wake County Hosting
 - Transfer exports (both daily and real-time) to new server

- When a user's preferred branch is closed, force the user to select a branch. After selecting the branch update their alternate branches if the alternate branch is not already selected.

The screenshot shows two main sections: 'Pika Configuration' and 'My Preferences'.

Pika Configuration:

- Locations:** A dropdown menu for 'Valid Hold Pickup Branch?' with options: 'Valid for all patrons', 'Valid for patrons of this branch only', and 'Not Valid' (highlighted with a red circle).
- ILS/Account Integration:** A section for integrating with external systems.

Place Hold on Fireworks (Modal):

- I want to pick this up at:** A dropdown menu with a red circle around the label. The dropdown list shows: 'Please Select a Location', 'Garfield-Glenwood Springs Branch', 'Garfield-New Castle Branch' (highlighted), 'Garfield-Parachute Branch', 'Garfield-Rifle Branch', and 'Garfield-Silt Branch'.
- Buttons:** 'Close' and 'Submit Hold Request'.

My Preferences:

- My First Alternate Library:** A dropdown menu showing 'Garfield-Rifle Branch'.
- My Second Alternate Library:** A dropdown menu showing 'Garfield-Carbondale Branch'.

- Created a page to show how much information each library has within the Archive

The screenshot shows the 'Archive Usage By Library' page.

Archives: A sidebar menu with options: 'Archive Material Requests', 'Archive Authorship Claims', 'Archive Usage' (highlighted with a red circle), 'Archive Subject Control', and 'Clear Cache'.

Archive Usage By Library:

Library	Num Objects	Disk Space Used

- When Pika is placed in Offline Mode, allow configuration for whether or not the user can accept holds.

The screenshot shows the 'Choose a Format' modal.

Format	Status	Action
Book Show Edition	On Shelf	Quick Copy View
Audio CD Show Editions	checked out	Quick Copy View
eAudiobook Show Edition	Checked Out	Quick Copy View Place Hold OverDrive
eBook Show Edition	Checked Out	Quick Copy View Place Hold OverDrive
Large Print Show Editions	checked out	Quick Copy View

- Allow additional configuration for how individual MARC records are organized into folders within Pika servers.

Bug Fixes

- Titles that have been weeded from the OverDrive Collection are no longer displayed in Pika.
- When using linked accounts, if one account was expired the information could cause errors in the display of the main account
- Correct the display of military information when the branch or conflict is not known.
- Correct the login process when submitting new materials requests

Sideloads

- [Films on Demand for CMC](#)
- Hoopla for Pitkin
- [Alexander Street Press for CCU](#)

Additional Work

- Automatically deliver ebrary records to EBSCO EDS for Western
- Update search bar for Pine River to allow searching the website in addition to the catalog
