Cowboy Down Under aka Ziggy has been involved in the GCR\RV for years.

“The founder of this organization Richard Gage is the man who introduced me to the RV and gave me my first currency. 9/11 is when the last RV was going to happen.” Ziggy

Architects & Engineers for 9/11 Truth | WTC Twin Towers and Building 7
<https://www.ae911truth.org/>

From 2010 TNT Tony to 2020 Mark Z and almost every group in between he has been active. For over 3 Years he was a weekly contributor to IDC (Intel Dinar Chronicles) you can read his post from over the years here

He has always tried to keep an upbeat message to his writing however like all involved in this adventure he has had to, when needed, walk away and just go on with life. He lived 5 years in Kiev, Ukraine, 5 years in Costa Rica, 5 years in Chile and a year in Japan, Korea, Uruguay and Equator and no he was not an undercover agent for the FBI, worse he was an entrepreneur. He has built, owned and operated several international businesses in the Employment, Real Estate and Development, Tourism and Bar\Restaurant fields.

In 2005 he received a download in the form of a book H.E.A.L. (Heal Earth And Life) foretelling of his involvement in a project to help HEAL the planet and its inhabitants.

From a posting he did on an Intentional Community website in 2006 here is a Community Description of HEAL.

"H.E.A.L. (Heal Earth And Life) Think of H.E.A.L. as a very cool, well organized tool shed for humanity.

It is our hope to give an environmental example in our community of how man can live as one with nature, using all our renewable energy sources, feed ourselves good healthy organic food, experiment with best eco friendly building practices while teaching others to do the same. Do you have some ideas for making our project better? There's plenty of room, and we welcome you to be a part of this working/teaching environmental classroom.

H.E.A.L. has a simple belief. This planet is our home! There is a definite connection between its health and ours. We as a generation are moving to new heights with our ability to rejuvenate, renovate, and resupply our bodies and minds with so much that is good for us. Let's do the same for the place we live, our home, this planet. There is power in the masses and their movement. These days that movement is towards hope. Look around you and you will see it everywhere. We at H.E.A.L. would like to identify the problems, present the solutions and put them in the hands of the people who can make a difference, YOU!

We need your help to find the sharpest tools on the planet: those people who know the answers, who know how to fix what's damaged or broken—the experts at global and human restoration. We want to support them and pay them to do what they do best, provide solutions! If you are interested in this adventure please contact us and hey, thanks for being HERE!"

Ziggy, C.E.O.(Concerned Environmental Officer)
H.E.A.L. (Heal Earth And Life)

<https://www.ic.org/directory/heal/>

In 2010 he met a man who would change the direction of his life and that of HEAL. Richard Gage the founder and president of Architects and Engineers for Truth about 9/11.

<https://www.ae911truth.org> (I highly recommend you watch their new video "Seven")

Ziggy had just told Richard about his plan to HEAL the world and Richard asked him, "How are you going to pay for this plan?" He then handed Ziggy a 25k Iraqi dinar and told him to go home because "tomorrow he could exchange this note for all the money he needed to start his plan in motion." Over the next 10 years Ziggy would receive the education of a lifetime as he explored everything about Nesara/Gesara and collected currency from all over the world preparing for the Global Currency Reset.

H.E.A.L. (HEAL Earth And Life) has changed over the years but its mission has stayed the same. To supply those with projects, with all the sharpest tools they need, to get the job of fixing all the things that are broken, done!
