Abstract

Write down here your paper's abstract in one paragraph, Garamond font size 12 with single spacing, no more than 250 words. The abstract is not an "introduction", or the conclusion of the discussion. The abstract should be typed as concise as possible and should be composed of: problem statement, method, scientific finding results, and short conclusion. Other important matters discussed in the paper that significantly contribute to the final result of the research may be noted here, but you have to consider, however, the limited space of the abstract.

Keywords:

Pendahuluan

Your text is here, in **12-pt Garamond font**, left, right, top, and bottom margins are 3 cm on A4-sized paper; 1.5 line-spacing; don't add space before and/or after paragraph; length: between 5,000 and 8,000 words (including abstract, references, and footnotes). An introduction of the paper (with a proportion of 15-20% of the whole article length) should clearly state the purpose of the paper. It includes background of the problem, state of the art at least 5 articles sourced from reputable international journals or accredited journals for a maximum of the last 10 years, gap analysis with previous research, novelty, research objectives are clearly presented (expressed). All introductions should be presented in the form of paragraphs, not pointers (Ferrazzani, 2023).
