*A vision document is used to clearly communicate the vision of what we want to do. What value might it bring in? How to do it? What methods to follow, the obstacles that might come in and the measures to use to determine the efficacy of the vision.*

## Vision

*Write what you want to accomplish in 1-3 sentences.*

## Values

*Write 3 main values that would govern decision making.*

## Methods

*Write 5-7 actions you would take to achieve your vision. Order the methods based on priority.*

---

## Obstacles

*What challenges would you have to overcome to achieve your vision? List some ways these can be overcome.*

## Measures

How would you measure the outcome of your actions? These can be progress or completion measures.
