

Phase 3: Exhibition Preparation

We are almost at the end of this project. Now it is time to prepare to exhibit your work! Make a copy of this document for your group and share it with all group members and your research advisor.

Part 1: WHOLE GROUP		
Topia Products- Listed below are the items that need to be included in your group's Topia zone, listed by the project phase you completed them in. You can find these items by going to the 🌟 Benchmark Assignments🌟 section of Google Classroom and clicking on the phase the item is listed under here. Once you have the item, you need to make it Topia ready. You do this by putting the		Talking Points- At exhibition your group will be stationed at your Topia Zone, and your job will be to guide visitors through your project products. Be ready to speak on all the points listed below
Phase 1 Item Requirements: Survey: You must show survey responses to questions 1 and 3 for at least one member of your group. Responses can be on a billboard like the example below, or displayed in other ways if you prefer, but visitors must be able to read the responses in Topia  H.O.P.E. Story: Display 2-3 of your group's H.O.P.E stories. Add the link to the story to each image. The stories can be displayed by putting just the title and picture(s) on a scroll, like the example below, or displayed in other ways.	Phase 1 Item Links/Images: Survey: live link to image(s) or place image(s) here • H.O.P.E. Story: live link to image or place the image, also include link to full HOPE story • Group member 1 image and full story • Group member 2 image and full story • Group member 3 image and full story	Phase 1 Talking Points: • What was the point of starting the project with a survey? <i>Discuss how the survey results helped your group determine your worry for the next phase of the project.</i> • What was the interview process like? <i>Discuss how/if the interview helped you build empathy with someone's perspective.</i>

Phase 2A Requirements:

Phase 2A: To exhibit this phase you will just link to each group member's Phase 2A document. You can put the link on an icon, button, or an image like the example below.

Phase 2A Links:

Phase 2A: live link Phase 2A doc with sharing set to "anyone with the link can view"

- Group member 1
- Group member 2
- Group member 3
- Group member 4

Phase 2A Talking Points:

- Walk the audience through NWP research process
 - Examples: SDQs, GQs, annotation docs, & group outline

Phase 2B Requirements:

Infographic: If your group created an infographic, display it in topia. You may also live link to your infographic if you wish.

Interview: If your group conducted an interview, display it in topia. Insert the video or audio and have it playing in your zone OR insert a link to your interview video. Be sure to also include a sign describing who you interviewed

Phase 2B Item Links/Images:

Infographic: Screenshot or live link to infographic here

-

Interview: live link to interview here

-

Phase 2B Talking Points:

- Talk about the process of creating an infographic and conducting an interview
 - Describe your experience interviewing someone
- Talk about the process of making the video
 - Was it difficult to frame it in a hopeful way?
 - Was collaborating with group members in distance learning challenging?

**Interview with:
Albert Einstein
Scientist**

Some Good News Video: Live link to your video here

-

Some Good News Video: Your video is your major product, and the screen for it is already placed in your zone. Use this tutorial [Adding a video to your Topia](#) to learn how to add your video to your screen.

Alternate Ideas (optional)

Good way to get that 4! If you finish all other work, you may work on either of these options

Billboard/movie poster- draw or create a movie poster for your video.

Links to further information on our topic or how the audience can get involved -get your audience involved in helping solve your group's worry!

Alternate Idea Links (optional)

Part 2: Topia Administrator

Each group must pick a Topia administrator. This person is responsible for creating the group's Topia zone, importing all the Topia Products from the table above and making the zone look inviting and interesting to audience members. Write the name of your Topia Administrator here:

Creativity and Responsibility

You must include the items listed in part 1, but you have a lot of creative leeway in the way you display those items. Your Topia Zone should draw the audience in, but also be functional (no blurry pictures or tiny writing). Have fun...but remember to keep things appropriate and to only change things in your group's Zone.

Resources

A lot of what you do in Topia will be by trial and error, but here are a few helpful resources to help you get started:

[Adding a video to your Topia](#) (Note: you need to be able to download your video to play it. If you are unable to do so, let your research advisor know)

[How to add and modify objects](#)

[Billboard Assets](#) that can be modified

[Adding Custom Images to Topia](#) (tutorial video)
