

Privacy Policy

This application was developed and released by Roberto Luis Hernandez
This privacy policy describes how personal data is collected used stored and protected when using the application or any related services

The content of the policy applies to all users and may be updated without prior notice Updated versions will be available in the application or on the official website Continued use of the services confirms agreement with the current version of the policy

The application may collect information related to bluetooth settings visible network names and device identifiers as part of its normal functionality

This information is used to provide access to core features improve overall performance support technical maintenance and ensure basic security measures Some data may also be used for analytics research or content personalization based on user consent

Certain features or third party tools may rely on technologies that store small amounts of data to improve service functionality These tools may operate in the background and their behavior can often be adjusted in the settings of the user's device

Collected data is stored on secure servers and retained only for the time necessary to support the operation of the application and fulfill legal or functional requirements After the service is no longer used the data is either deleted or transformed into a non-identifiable format unless permission has been given to store limited information for communication purposes

In some cases access to collected data may be granted to trusted service providers who help support or improve the application All such access is controlled and protected by strict data handling rules

Technical and organizational security measures are applied to protect personal data from unauthorized access or misuse While strong protection methods are in place

no system can guarantee complete security Users are encouraged to use secure devices and connections

Users have the right to request access to their data ask for corrections removal or limited use and withdraw consent for optional data uses Requests can be submitted by contacting the support email listed at the end of this policy

The application is not designed for children under the age of thirteen and does not intentionally collect data from individuals in that age group

External links or services that appear within the application may operate under their own privacy policies The handling of data by such services is not covered by this policy and users are encouraged to review those terms separately
