

Hello Mr. Adam,

Glad to see that you recognize the potential of short videos by implementing them on your TikTok and Instagram.

I have created a free script for you based on the most popular trends on TikTok and reels, focusing on human psychology.

If you are interested in permanently including these elements into your Instagram or TikTok to expand your audience and customer base, I invite you to get in touch!

As you know, short films are currently the most effective method of marketing.

Best regards,
Iwo
