SL: Big shot at improvement

Hello <name>,

I came across your website when looking for beginner trader tips. What I appreciate, and one of the reasons you received this email, is because you offer 4 free books. They are written by a professional with 20 years of trading experience which is a big plus.

After going through your website I noticed how much room of improvement you aren't using.

Your newsletter isn't advertised as it should be. It is so easy to miss it, which shouldn't happen, because it will build rapport with your subscribers.

I went ahead and made a free email for you to see what it looks like. Using these tips will make you more viewers and sales.

Here it is >>>

If you are interested in testing these out and seeing more, Let me know by replying.

Is this bs or true?

SL Website improvement

Hello Name

I have been watching one of your videos. In a recent video you stated that "something" and I agree. I can see how that might change person's mind and get them ready to buy your product

I appreciate how your websites offers free workouts and samples of your supplements. How supplements are detailed and it sales page isn't filled with not needed information.

On its own these things are good, but the key is to attract more viewers and sales.

You can do this by implementing sequences, more emotion and more exciting things in your newsletter

Are you interested in hearing how this change is gonna help you and how easy it is to put them in place?
