

Snowman

Suggested Fall Project for TK

Alta Vista 2024

Dimple Timbadia & Nikki Gettleman

Overview of the supplies required.

Volunteer will help roll out clay 1/2 " thick. Use 2 wooden guides to keep the thickness consistent.

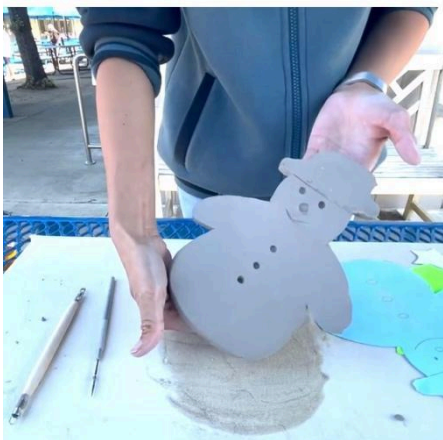

Using the snowman template and the metal tool, cut out the clay into a snowman shape.

Using back of the metal tool create eyes, nose, and buttons of the snowman. Use the metal scraper to create the smile. Add creative details to the hat.

Smooth out fingerprints and/or any rough edges with slightly wet fingers.

Note: Remember to Score the child's name behind the completed project using the metal tool

Once the bowl is dry, it is ready to be fired in the kiln.

Variations: Use the Christmas Tree or Gingerbread Man templates and follow the same process
