

Stateline Fury Playing Time Policy

Friendlies & Pool Play

- Teams must use a continuous batting lineup.
- No player may sit out more than two innings on defense per game, ensuring that every player gets meaningful playing time for development.
- Coaches are reminded that they personally invited each player to be part of their team and are responsible for providing opportunities for growth.
- Teams are required to keep accurate records of playing time (GameChanger can assist with this). These records must be available upon request to the Stateline Fury Program Director and the Stateline Sports Group Executive Director.

Bracket Play

- Teams are expected to use the strongest possible lineup to give the team the best chance of success.
- Playing time during bracket games is not guaranteed and will be determined by team performance goals.
