Research Training Project Application Form

This research training project aims to train the participants in research skills and coach them in designing research, conducting fieldwork, and compiling a report. The participants will be exposed to various social science research skills in the course of the training period. Furthermore, this training is geared toward building capacity and confidence to research a wide range of socioeconomic and environmental issues challenging the peace, well-being, and stability of our community. The project cycle starts from **May to November 2025**. By the end of the project cycle, the participants will be able to compile a report and present their research process and findings to the whole class.

1. Personal Information

- Full Name:
- Nickname (Optional):
- Date of Birth:
- Home address:
- Contact information:

2. Education Background

- The highest Degree:
- Major:
- Institutions (college/university):
- The Name of the high school:
