

As you click this doc, you'll learn that you can do art trades with me!

However, I am not a professional at "arting" so my art looks goofy and cheap!

When art trading, I will take no more than a week or two (depending on the school work I have to do) to complete my part of the trade, so no rushing me to finish fast!

If asked, I can add a background and even shade the art!

With that being said, here's the list of things that I will and won't draw! ^^
