Race For Governor of San Andreas

WEAZEL NEWS EXCLUSIVE

The race for governor intensified today as James Smith leads the early polls. Many people favour Smith to hold out against opposition. Dominik M. recently stepped away from the race endorsing Smith as his candidate. So, who is James Smith. We sat down in an interview with him: "I came up in this world through multiple business ventures all designed to further the progress of humanity. I stated with real estate and creating affordable housing in San Andreas," Smith said "I've lived here all my life and am committed to helping the people of San Andreas." When asked about specific, targeted plans Smith said "My focus, if elected, is to begin servicing the roads of Blaine County, establishing the Law Enforcement Agencies as cohesive and equipped for anything," he continued: "We currently have plans in place for additional firearms for the Law Enforcement Agencies as well as support from Federal Agencies and the creation of San Andreas Tactical Response Units." Smith seemed passionate about the project he described and that's no surprise considering his track record and that his entire life has been spent in San Andreas.
