Akvelon Inc.

Position: Senior iOS SDE

About us

Akvelon Inc (USA) works in the field of software engineering based on a variety of technologies. Our company is a member of the vendor program, which gives employees the opportunity to work with clients in the United States and other countries (**Microsoft, Facebook, Airbnb, Dropbox, Pinterest,** and many others). This is a great opportunity to learn from and work with leading engineers of world-renowned companies.

About project

The client is a software and services company focused on bridging the gap between revenue cycle and digital health. Their mission is to simplify the complexities of healthcare. Together with 2000 customers across the United States, Canada, and New Zealand, they reduce documentation burdens for clinicians, reduce costs through best-of-breed coding solutions, and integrate digital health point solutions into the seamless patient digital front door.

Responsibilities

- Iteratively plan and deliver app updates that implement features as defined by product specifications

- Quickly understand the constraints of a product request in order to propose valid alternative solutions

- Collaborate with the Android Software Engineering team to ensure a consistent UX for apps across both platforms

- Work closely with other teams within the organization that provide support for the software

- Create intuitive, optimized, and brand-consistent apps for large health system clients and business partners

- Work closely in a small team environment to deliver products on time and schedule

- Other duties as assigned

Requirements

- 4+ years of significant application development experience

- Experience in iOS application development using Swift

- Experience with UI/UX development using SwiftUI and UIKit

- Testing experience with XCTest framework

- Source Control management with git

- Excellent written, documentation, and communication English skills

- Ability to build and maintain strong interpersonal relationships

- Ability to quickly learn new systems and work well in a team

- Readiness to work with a legacy codebase

- Experience with Android application development is nice to have

We offer

- Entering a professional level equivalent to world standards;

- High wages (we are guided by the candidate's wishes and level);

- LCA with dentistry;

- An excellent team of high-level professionals one can learn from;

- Flexible working hours.
