

PRIVACY POLICY

Last Updated: July 23, 2026

1. Introduction

Welcome to "My Family". We respect your privacy and are committed to protecting the personal data of our users. This Privacy Policy explains how we collect, use, and secure your information when you use our shared family calendar mobile application.

2. Information Collection and Use

To provide the core features of the shared family calendar, the application collects the following information:

- Account Data: Username and password, used solely for authentication.
- Profile Data: Display name, optional phone number, and avatar image.
- Calendar & Schedule Data: Event titles, descriptions, dates, times, event types, and recurrence patterns created by you or your family members.

This data is used solely to synchronize schedules and calendar events among authorized members within your family group. We do not use this data for advertising purposes, nor do we sell it to any third party.

3. Third-Party AI Processing

To power the app's natural-language scheduling feature, the text you type or speak is sent to a third-party AI provider (DeepSeek or Google Gemini, depending on configuration) solely to extract event details such as date, time, and title. This text is not used by us or by the AI provider for advertising, and is not linked to your account by the provider.

4. Data Security and Storage

We take reasonable measures to protect your data. We are in the process of enabling encrypted (HTTPS) connections for all communications with our servers; until this is complete, please avoid entering sensitive personal information beyond what is necessary for scheduling.

5. User Rights and Data Control

You may edit your profile details and calendar events at any time directly through the application. To request deletion of your account and associated data, please contact us using the information below; we will process deletion requests within a reasonable time.

6. Children's Privacy

My Family allows a family organizer to create profiles for family members, including children, for scheduling purposes. We do not knowingly collect personal data directly from children under 13. If you believe a child has provided us with personal data without parental consent, please contact us to have it removed.

7. Contact Information
