A word from our team...

We started Dipsea with a simple question:

*What would it look like to create an app that was
literally designed to turn women on?*

Research shows that sex is as mental as it is
physical but until now, there hasn't been much
investment or innovation in stoking inspiration.

So, we made it our mission to build a universe that
cares about your wants and needs – down to the
smallest, most intimate details.

The Dipseaverse is a safe space to explore your
desires and connect with yourself.

We hope it lights you up.

– Dipsea co-founders Faye and Gina

Part of the magic of Dipsea are the voices you fall in love with.
From Scottish sailors to no-nonsense cowgirls to
powerful doms and dommes...

No matter what you're into, we have a hunk for you.

“

I love how varied and queer-friendly this app is. The characters feel like real, interesting people, and that's what makes them so compelling.

“

Smart, subtle story details that let you know these stories were written by women. Great build-ups and story arcs.

“

It feels like you're bringing the types of romance novels I read to life.
