

Worms! Worms! Worms!

~~~~~

You are going to research worms using the information from [the video](#) and the [Herman the Worm Website](#).

Our goal for today is to work together to complete a Google Drive document. With this in mind, here are the requirements for this lesson:

- You must put information in your own words.
- You may not cut and paste information directly from the internet.
- Each student must type one section on the table. Type your name next to the section you complete.
- You must use good sentences. I expect to see capital letter, punctuation, and correct spelling.

| Name            | Something I learned                                                                                                              |
|-----------------|----------------------------------------------------------------------------------------------------------------------------------|
| Mrs. O'Sullivan | Worms can eat up to half of their body weight each day. I cannot imagine having to eat that much food each day!                  |
| Franco          | I learned that worms like to eat tea bags                                                                                        |
| Ariana          | Worms have five hearts! That is awesome.                                                                                         |
| Jordan          | I learned that worms are helpful for gardening. Worms don't like sugary foods.                                                   |
| Chase           | Worms have 5 hearts and eat half of their body weight a day!                                                                     |
| Blake           | Worms have five hearts how cool is that!                                                                                         |
| Ashley          | I learned that worms are more worms are more helpful than helping in gardens they also eat leftover food that humans do not eat. |
|                 |                                                                                                                                  |
| Luna            | Worms put their ends together to reproduce. How weird is that?                                                                   |
| Makayla         | Worms have hearts! They don't like butter and greasy stuff!                                                                      |
| Vinu            | I learned that worms 5 hearts, like tea bags, and they hate basically junk food.                                                 |
|                 |                                                                                                                                  |
| Aislyn          | Worm's do not like Pizza. I love Pizza.                                                                                          |
|                 |                                                                                                                                  |
| Nicky           | I learned that worms have 5 hearts                                                                                               |
|                 |                                                                                                                                  |
| Michael         | Worm eat tea bags and do not like ice cream.                                                                                     |
