

# It's time for 3rd Grade Penny Wars!

February 14-18, 2022 during lunch

The object of Penny Wars is to try to get the most POINTS for YOUR classroom!

Each penny counts as +1 point

Each dollar bill is DOUBLED ( \$1 would be counted as +200 points, \$5 would be counted as +1,000 points, etc...)

Nickels, dimes and quarters count AGAINST your classroom!  
You will want to put them in the OTHER classroom's jugs!

Each nickel takes away 5 points.

Each dime takes away 10 points.

Each quarter takes away 25 points.

Each classroom will have a jug in the cafeteria. During lunch, the students will put change (or dollar bills) into the jugs.

The class with the most positive points at the end of the competition will win the war! Good luck, and let the games begin!

*All of the money is going to 3<sup>rd</sup> Grade Activities so in the end we all win!*
