

## Canvas Parent Observer

Parents who are interested in joining student Canvas accounts as observers will need to follow these steps:

- Students will need to go to their Canvas account and find the code to give to their parent observers. Students can find the observer code by following the steps in this screenshare: [How to find Parent Observer Code](#)
- Parents will need to create a parent account at <https://carteret.instructure.com/login/canvas>.
  - This can be done on a laptop or by using the Canvas parent app which can be downloaded on a cell phone.
  - When searching for a school, the school system, Carteret County Schools will need to be chosen (not CHS).
  - The parent will be prompted to enter the Parent Observer Code. This will give parents access to ALL classes for this student that are in Canvas.
