17. ARGIRELINE CONTOURING MASK (Egg White) (Cream)

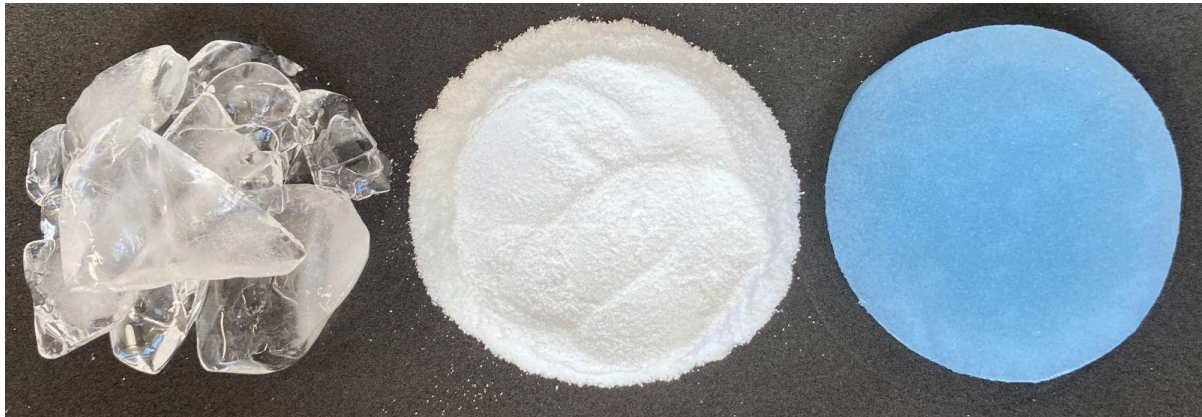

Properties and Functions

Properties and Functions represent what the ingredients do for the skin.

REJUVI & HYDRATE - Anti-Wrinkle & Refreshing

FUNCTION/BENEFIT

Moisture Retention, Increase Skin Cell Metabolism, Reduces Fine lines and Wrinkles, Brightening, Cooling and Soothing.

LIFT & FIRM - Anti-Wrinkle & Moisturizing

FUNCTION/BENEFIT

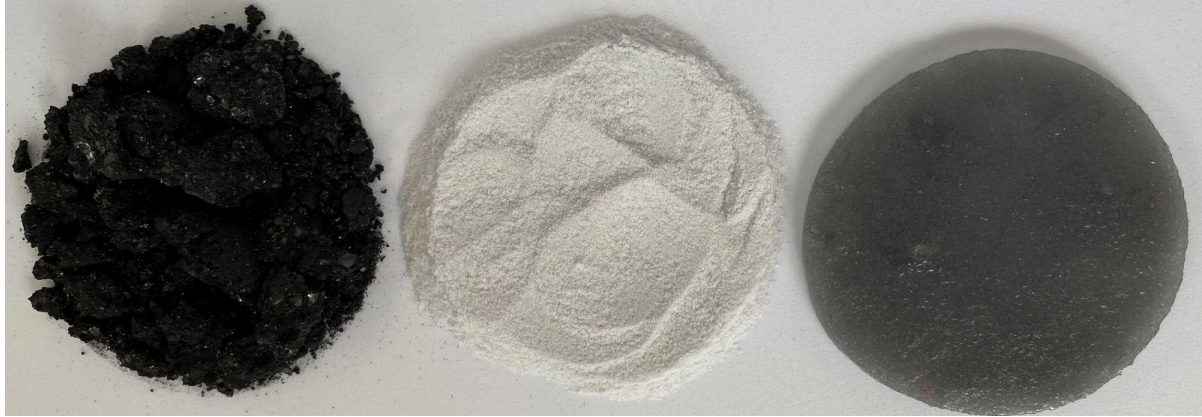

Increase Cellular Renewal, Reduce Collagen Depletion, Improve Skin Hydration and Moisture Retention, Reduce Acne, Skin Allergies and Toxins in the skin and Increase Skin Cell Metabolism.

DETOX & CLEAN - Brightens & Refines Pores

FUNCTION/BENEFIT

Deep Cleansing, Unclogs Pores, removes deeper impurities and dead skin cells, Brightens Complexion, Smoother, Supple and Even-toned skin.

REFRESH & GLOW - Tightening & pH Balancing

FUNCTION/BENEFIT

Hydrating, Tightening, Balances pH of Skin, Brightening, Contains Vitamin C and E, Softening and Calming/Soothing to the skin.

MODIFY & EASE - Decongest & Soothe Skin

FUNCTION/BENEFIT

Alleviates Redness, Soothes Sensitive Skin, Relieves Inflammation, Decreases Signs of Ageing, Cleanses the Skin and Anti-bacteria.

BALANCES & RESTORES - Non-Comedogenic & Lightens Skin

FUNCTION/BENEFIT

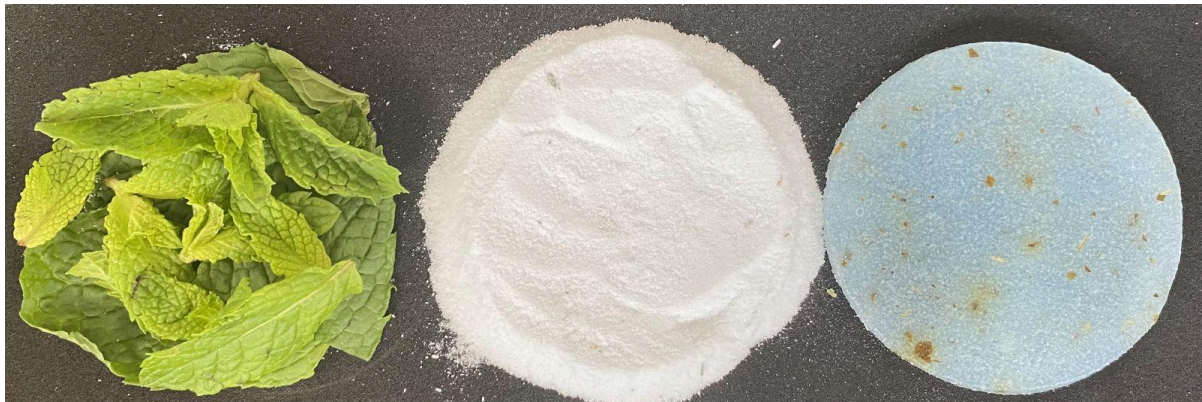

Detoxifies, Heals injured Skin, Reduces Wrinkles, Non-comedogenic, Balances Moisture Barrier, Fights Acne, Lighten Skin and Anti-inflammatory.

TIGHTENS & TONES - Cleanses & Astringent

FUNCTION/BENEFIT

Mild Astringent, Tones, Cleanses, Hydrate, Brightens Complexion, Rejuvenate the Skin, Scar repair, and diminishes dark circles.

BOOST & SMOOTH - Wound healing and Repair

FUNCTION/BENEFIT

Calm redness and swelling, boost wound healing, smooth and clear skin, reduce scarring, anti-inflammatory, anti-bacterial and anti-microbial.

CLEAN & CLARIFYING - Exfoliate & Neutralizes Free Radicals

FUNCTION/BENEFIT

Clean, clear and clarify the skin, Shine Eliminator, boost collagen production, neutralize free radicals, close and tighten pores, boost skin immunity, anti-oxidant and skin brightener.

HIGH ON VITAMIN C - Improve skin resistance to UV & Anti-oxidative

FUNCTION/BENEFIT

Improve skins resistance to UV, Improve collagen production, Improve skin barrier function, Fights free radicals and Anti-Oxidant.

STOP THE CLOCK ON AGING - Poly-L-Lactic acid

Function and benefit:

Stimulate the growth of collagen and new skin tissue. Brightens and lightens skin pigmentation and tones the skin.

NUTRITION FOR THE SKIN - Moisturising and nutritional supplement

Function and benefit:

Cell nutrition. Increases water supply to the skin. Super antioxidant. Enhances skin texture.

GO AWAY SUN - Brightening and remove freckles

Function and benefit:

Protect skin from environmental stressors. Free radical scavenger. Stimulate and increase fibroblast activity. Collagen stimulator.

LUXURY CAVIAR - Flawless and contouring

Function and benefit:

Effectively activate skin cells and regenerate the dermal tissue.

MANGO - Whitening and anti-oxidant

Function and benefit:

Effectively whitening, anti-oxidant, moisturizing and hydrating.

ANTIOXIDANT GOJI - Regenerating and radiance

Function and benefit:

Effectively regenerating and nourishing the skin, leaving it soft and smooth.

ARGIRELINE CONTOURING MASK

- Intensive fine lines, expression wrinkles and large pore treatment.
- Targets visible signs of aging, large pores, creases, and crinkles.
- Keep skin smooth and wrinkle free and improve moisture levels in the skin.

Argireline Contouring Mask is a high-quality, toxin-free face mask that will leave your skin looking younger, brighter and more radiant. With the help of peptides and antioxidants, this mask reduces the appearance of wrinkles and fine lines by tightening the skin's surface and reducing excess sebum production. It is formulated with Argireline, a natural active ingredient that is proven to help reduce the appearance of wrinkles by up to 30%.

Argireline Contouring Mask Treatment is the perfect way to get rid of wrinkles and fine lines. Argireline is a peptide that works by relaxing your facial muscles, which helps you achieve a more youthful appearance. It does this by preventing the contraction of muscles that cause wrinkles, so you'll look younger and feel more confident! Our Argireline Contouring Mask Treatment is ideal for anyone who wants to look younger without having to spend hours in the gym or at home working out. The treatment takes about 15 minutes, but it can help you look years younger!

You should expect to see a significant improvement in the appearance of your fine lines and wrinkles. You may notice that the skin on your face feels firmer and tauter, and you will definitely be able to see a difference in the texture of your skin.

Ingredients: Argireline, albumen, Zea Mays, Acetyl hexapeptide, allantoin, aloe barbadensis leaf, panthenol, silica, dipalmitoyl hydroxyproline, butyl glycol. 1,2-hexanediol, caprylyl glycol, illicium verum (anise) and fruit extracts.

The key active ingredient, Argireline, also known as acetyl hexapeptide -3 or -8 targets fine lines and subtle expression wrinkles (caused by repeated muscle movement). Argireline affects nerve-to-muscle communication so that the muscle contractions do not deepen expression wrinkles, it also stimulates collagen production, further helping to increase skin firmness. Along with the skin-smoothing effects, argireline improves moisture levels in the skin. And hydrated skin is always going to look more youthful than dry skin. This powder mask is best for full face application targeting where you have large pores, creases, and crinkles around the eye, mouth and forehead.

Instruction how to mix:

Pour a small amount of powder (1 teaspoon) into a bowl and add 5 - 6 ml of water to mix to a foamy consistency. Apply with a brush to the face and neck. Leave for 5 - 15 minutes (5 - 10 min). Remove with a hot towel or warm water and sponges. Apply one of our serums to finish the treatment.

How often can the treatment be done?

As soon as every 1-2 weeks. If you are planning a course of in-clinic treatments, the Argireline contouring facial is a great starting point to help establish a healthy foundation and get the skin in shape for more advanced treatments such as skin needling. Assisting the Circulatory system to function at its best by providing Lymphatic Drainage and supporting the Vascular Network to clear toxins from the skin and feed the skin from the inside out.

Who isn't a good candidate for this mask?

Contraindications include:

- Rosacea, Eczema, chronically inflamed skin types
- Thinned/ fragile skin types
- Broken skin/ lesions
- Allergies to egg
- Currently I have an active cold sore.

Generalized caution:

High blood pressure, asthma, cancer, lupus, thrombosis or thyroid issues.

Is the treatment safe for pregnant and breastfeeding women?

Yes! Your comfort is our priority so the treatment can be done as long as you can comfortably lay still for the entire treatment and are okay with the progressive 'tightening' feel of the mask.

Directions for Hydro Jelly Masks

Mix the Jellie Mask with water (mix 1 1/2 scoops of powder with 1 scoop of water) until it is well blended and apply a thin layer to clean skin. After 10 - 15 minutes peel off to remove. TIP: Try substituting water with Hyaluronic acid, Rosewater or other Essence.

Caution

For external use only. Avoid contact with eyes, Discontinue use if irritation occurs. Do not dispose of masks or pieces down drains. Store in a cool, dry place.

Mixing tips

Preparation & practice is the absolute key! The better the application, the better/easier it is to remove (if you aspire for the one piece removal) Recommended ratios is 1.5 scoops of mask (75ml) to 1 scoop of water (50ml) Some of the masks are a little runnier than others so getting the consistency right by eye is a good way to get it right vs. just ratio of mask to water. Don't add all the water at once, you can add 1/2 stir and add the rest to get the correct consistency.

Tuck tissues into your headband so in case it drips you don't ruin all of your headbands. Use tepid (room temperature) water, too hot or cold will affect your consistency and dry time. Don't combine/mix just until prior to being ready to apply to the face. Apply like you are icing a cake (about as thick as a banana peel) pay particular attention to apply with thick edges for easy removal, thin edges are difficult to remove are tear. Use your spatula to catch "drips" and lift back into place.

Whatever you do, don't wash the powder/mask down the sink. Use a paper towel to wipe your bowl and spatulas into the trash so you don't clog your sink. Happy Masking!

PROTOCOL TREATMENT

- Cleanse the skin with our cleansers to remove all dirt, make up and unwanted oils from the surface of skin.
- Wipe skin a few times with our Preparation Lotion, to deep clean and to bring the skin's pH back to normal.
- Apply a thin layer of Preparation Oil, to rehydrate and protect the skin during Dermaplaning.
- Perform a Dermaplaning Protocol Treatment, to remove all dead skin and Vellus hair from the Epidermis.
- Wipe skin a few times with Preparation Lotion to remove all dead skin and Vellus hair from the Epidermis.
- Apply a layer of MuPEEL and gommage the enzymes off the skin. Do rotary movements until the skin is buffed.
- Wash skin with face towel and warm water.
- Apply the JELLIE MASK (follow protocol) and leave it on for 10 - 15 min. Remove from skin.
- Apply one of our after care products.

PURE ROSE WATER EXTRACT

Add a few drops of this extract to your water during the mixing process. 1 - 3 drops per 75 mls of water. This is very refreshing and add more value to your mask.

Retail Sizes

Our retail range includes:

- 2 Sachets of Powder 75g each
- 2 Mixing Bowls
- 2 Spatuals

4 Flavors in the Retail Range

- Rejuvi & Hydrate (Hyaluronic Acid)
- Lift & Firm (Gold)
- Detox & Clean (Charcoal)
- Refresh & Glow (Rose)
