

Privacy Policy for LeetCode Recall

Effective Date: 8th February 2025

Introduction

LeetCode Recall is a browser extension designed to help users set reminders for revisiting LeetCode problems. We are committed to protecting your privacy and ensuring transparency about how your data is collected and used.

What Data We Collect

- **Email Address:** This is collected when you set a reminder and is used exclusively to send email notifications.
 - **LeetCode Problem Details (Name and Link):** These details are extracted from the active tab to personalize reminders and notifications.
-

How We Use Your Data

- To send email reminders through our secure backend server hosted at <https://emailsender-2v11.onrender.com>.
 - To display local notifications as reminders for LeetCode problems.
-

Data Sharing

- We do not sell, rent, or share your data with any third parties.
 - The data is transmitted securely to our backend server solely to send email reminders.
-

Data Retention and Deletion

- Data stored locally (e.g., email address, problem details) is removed automatically once the reminder is completed.
- You can manually clear your data by uninstalling the extension.

Data Security

- All communication between the extension and the backend server is secured using HTTPS.
- No sensitive data is permanently stored on our servers or shared with unauthorized entities.

User Rights

- You can uninstall the extension at any time, which will remove all locally stored data.
- If you have concerns or requests about your data, you can contact us directly.
