

There's a knock at your door. A very tired looking scruffy Maldreth Ward passes you a manilla folder with your Ambassador on it.

"I found what I could, I apologize if it is not enough."

Included is a printed out copy of a wikipedia article about your ambassador, and a USB drive.

"I did my best to translate it over to a neocities page. I could not copy over all the information before I lost access to the website, but I gathered what I could. The links should be functional and will lead you to other information I was able to preserve."
