

**Subject Line:**

The secret behind my high energy levels...

**Preview text:**

It's because of this weird, tiny power plant in our cells

**Body:**

Hi name,

Have you ever heard that 10% of our bodies are made up of Hydrogen?

This is the atom we use for energy.

We have tiny power plants in our cells, called mitochondria.

They are responsible for your body's ability to turn Hydrogen into energy.

Studies show that as we age, our tiny power plants get worse at turning Hydrogen into energy...

Meaning...

This is the actual "*root cause*" behind why you have low energy levels and fatigue...

This is why you need to drink 5 coffees to stay awake.

Your mitochondria is the reason behind why you have brain fog and concentration problems.

And that's why caffeine, being in the sun, getting 10 hours of sleep and eating super clean aren't helping at all.

Because instead of targeting *the root cause* of your low energy, you only give temporary fixes, like a painkiller for a headache.

This is why I'm sending you this email today.

Because you can fix your low energy issues really simply with this Japanese magic device!

When you click the link at the bottom, it will take you to The Lourdes Hydrofix Hydrogen Machine.

The pure hydrogen inside the device allows your body to use it up for energy like you were 20 years younger!

The machine adds the hydrogen into your water, so you can drink it easily!

I swear, I have been using it for 3 years now and I feel like I can't go a day without it!

Every time I take a sip or inhale the hydrogen-infused goodness, I instantly feel this crazy energy boost.

It's like magic! These folk have literally cracked the code to energy boosting.

Once you use the machine, your mitochondria (the tiny power plants) suddenly wake up and use the added Hydrogen up as energy **instantly**...

What should I say? It just works!

And for the next 24 hours, you'll get \$100 off on this holy device, use code "healthnut"!

[Yes, I want to finally fix \*the root cause\* behind my low energy!](#)
