

Funds raised on behalf of the Tenacious Unicorn Ranch from Gofundme and FurryCons, no personal fundraisers not related to the ranch by its members are included. Donations from Patreon are unknown. As of 01/04/23 there are 234 patrons pledging a total of \$1643 monthly. Additional donations made by Paypal or cash are not accounted for. No public accounting of budget, donations or expenses has been published to my knowledge.

On 07-02-21 "We are a 501(c)(3) now" was posted to the @TenaciousRanch twitter account. On 07-03-21 posted "our 501(c)(3) is up now and ready for your support!" To my knowledge no updates regarding their status have been made. As of 01/04/2023 no publicly available information confirming their nonprofit or charity status was found, they are delinquent according to the secretary of state website. Their current Instagram and Website do not refer to their charity status, though many references have been made to charity fundraising events by ranch members on twitter. They were endorsed by both Denfur 2021 and BLFC 2021 as officially sponsored charities of the conventions, even after members of the community asked for confirmation of official status federally, it is unknown what percentage of the overall total of the \$21,420.69 (BLFC) allegedly raised was distributed to TUR or the amount of cash donations collected at that time.

An estimated \$ 199,891 (not counting all donation sources such as cash, paypal, patreon or any sale of merchandise through any platform) has been collected from predominantly the online trans community for the explicit purpose of creating additional housing, it is unclear if any drafts, permits or construction of safe permanent housing for either animals or humans has been created.
