

Atlas, The Buccaneer

Atlas received a Letter of Marque and Reprisal from the Monarch, authorizing him to hunt down enemy vessels and to protect allied vessels. He navigates to other vessels with his compass, sailing downwind to gain speed and close the gap. Atlas' weapons of choice are a Cutlass and a Chain Hook. When he has caught up with his enemies, he uses his Chain Hook to reel them in and he slices and dices the enemy with his Cutlass. Atlas' diet consists of Golden Apples and Raw Fish. Atlas drinks salt water only, hence his Eternal Thirst. Atlas' weakness is land, because he used to the bobbing of the sea.

Starting Items

Black Leather Helmet (Tricorne)

Iron Chestplate (White shirt)

Black Leather Leggings (Black leather pants)

Iron Boots (idk)

Golden Sword (Cutlass)

Fishing Rod (Chain Hook)

2-4 Steak (Raw Fish)

2 Golden Apples (Vitamin C)

Compass (Regular CTF Compass)

Extra Information

It'd be nice if the normal steak could be raw fish instead, with the same effect.

Downwind

While looking in the direction of the compass, Atlas has speed II.

Extra Information

'The direction of the Compass' is either North, North-east, East, South-east, South, South-west, West, North-west. I have no idea how coding would work for this. It should not give speed when the compass is trying to point at you.

Butcher

The first and every third (or fourth?) hit with Atlas' Cutlass removes 1 steak or 1 Health Potion from the enemy's inventory. If the enemy doesn't have any steak or Health Potions, Atlas instakills them instead.

If the next hit will remove a steak, Atlas' Cutlass sword becomes enchanted. Instakillable enemies have a red dot above their head, similar to restorable targets for a medic.

Extra Information

'The first and every third hit' means that upon (re)spawning hits will consume steak on the first, fourth, seventh, etc. hit.

Chain Hook

Atlas has a Fishing Rod. Can be used to reel in enemies and to fish. Catching a fish grants Atlas 1 Steak / Raw Fish.

Extra Information

I don't know if catching fish is a thing on the CTF servers.

Vitamin C

Atlas has 2 Golden Apples. Maximum of 2 Golden Apples at a time. A new Golden Apple regenerates every 15 seconds, similar to the current speed of assassin.

Extra Information

Eating citrus fruits is a great way to remove scurvy. The next best thing in Minecraft 1.8 is Golden Apples. They are meant to be eaten normally, not near instantly.

Land Sickness

Atlas has Weakness I (or II?) while he's not in water.

Extra Information

Maybe he should have strength I and extra while in water instead :> useful alternative to pyro maybe? bc pyro doesnt work well in water
