if ((not registered) when (not logged in (need new response: login, confirm))

If chat dialog instance exists, #mo_btn_chi should not initiate connection (simply re-display panel) (replace if (!dialogOpen)); consider replacing "textarea" with "input type=text"

add listener: "enter" in text input field (send); \$('#foo').trigger('click');

New User Actions

Jump to: **[Index](#)** | **[New User](#)** | **[Basic Functions](#)** | **[Mentor Tasks](#)** | **[Student Tasks](#)**

A. Account Registration

1. Open MentorsOnline home page: <https://www.azwaldo.com/MentorsOnline/index.php>
2. Click inside the input field that reads "*Enter your passkey...*"
3. Type: **demo**
4. Select "Enter" ("*Student Registration Form*" opens)

5. Complete "*Student Registration Form*" ^A
6. Select "*Submit*"
7. Success: "*Dashboard*" opens
8. Select "Logout"; or, if you have not done so previously, you could [install](#) the browser extension ^B

^A Make note of username and password for use later

^B Select "Install" from the navigation links to the left, and proceed to next test "*Installing 'The Tool'*"

B. Installing "*The Tool*"

1. Follow instructions at this page: [Install Guide](#)
(Or click "Install" link, if already logged in.)
2. Please send questions/comments to azwaldo

C. User Login

1. Open MentorsOnline home page: <https://www.azwaldo.com/MentorsOnline/index.php>
2. Click the input field that reads "*Enter your passkey...*"
3. Type into input field: **demo**
4. Select "Enter"
5. Complete account registration form ^A
6. Select "Submit" ^B

D. Account Registration [Mentor]

1. Open MentorsOnline home page: <https://www.azwaldo.com/MentorsOnline/index.php>
2. Enter pass key: mentor
3. Complete account registration form ^A (without Home Page URL ^B)
4. Select "Submit" ^C
5. Select "Logout"

^A Make note of mentor's username, password (for possible use later)

^B System defaults to MentorsOnline User Dashboard

^C Make note of the "pass key" that is returned (displayed in page, on response)

E. Tool Activation and Home Button on Login [Mentor]

1. Enable MentorsOnline browser extension, if disabled (see **"Install"**)
2. Open MentorsOnline home page: <https://www.azwaldo.com/MentorsOnline/index.php>
3. Enter pass key: "mentor"
4. Complete account registration form ^A (include unique homepage URL ^B)
5. Select "Submit" ^C
6. Select "Logout"
7. Return to home page ("*Click here to return to Home Page.*")
8. Enter pass key obtained in step 4 (opens new student reg form)
9. Complete account registration form (make note of username, pswd)
10. **Open any other website** (in another tab, or navigate to new URL)
11. **Click on home icon in The Tool**; window should open your unique homepage

^A Make note of username, password (possible use later)

^B Mentor's homepage would likely be another domain, such as a teacher's profile or school website

^C Make note of "passkey" returned (displayed in page response)

F. Tool Activation and Home Button on Login [Student]

1. Enable MentorsOnline browser extension, if disabled (see **"Install"**)
2. Open MentorsOnline home page: <https://www.azwaldo.com/MentorsOnline/index.php>
3. Enter pass key produced in previous test "User Login and Home Button (Mentor)"
4. Complete account registration form ^A
5. **Open any other website** (in another tab, or navigate to new URL)
6. **Click on home icon in The Tool**; window should open mentor's unique homepage

^A Make note of username, password (possible use later)

Basic Functions

Jump to: [Index](#) | [New User](#) | [Basic Functions](#) | [Mentor Tasks](#) | [Student Tasks](#)

G. Lesson Assignment (Mentor)

1. Login to website as Mentor, tool disabled (Dashboard opens)
2. Select "Lessons" in nav menu (page opens, Assign Lesson shows highlighted item)
3. Select an item other than the one already highlighted ^A
4. Logout from website
5. Login as student (Dashboard opens)
6. Newly selected lesson should be indicated as "assigned" in My Current Lesson
7. **<Pending Canvas LMS Sync>**

^A Make note of lesson name for later

H. Lesson Selection

1. Login to website as Student, tool enabled (Dashboard opens)
2. Select the tool's lesson button (red button in user interface ^A)
3. "Current Lesson" panel should display assigned lesson ^B
4. Select an item in My Current Lesson other than the one already highlighted ^C
5. Newly selected lesson should be highlighted (boldface text)
6. **Verify** that the "Current Lesson" panel now displays the selected lesson
7. **Verify** that the assigned lesson still has "currently assigned" indicator (Jackface)
8. Logout at website
9. Login at website again as same student with tool enabled (Dashboard opens)
10. **Verify** that the assigned lesson now has both Jackface indicator and highlight (boldface text)

^A **Current as of version 0.43**

^B As indicated in Dashboard (See "Lesson currently assigned..." note, below radio buttons)

^C Make note of lesson name for later
