

Instructions: please make a copy for yourself before you fill this out. Then fill it out as you go with your own personal reflections. I recommend filling this out over the course of days, weeks, and even months if it so moves you so that you can really take the time to deliberate upon your answer and see how it changes over the course of time through prayer and application. Find what rhythms work for you, especially as you see it transform your day to day life while you apply it.

Occupation:

- **My Job** (that which occupies you with the needs of this temporal world)
 - Define your job (not all work is a job; all jobs are work)
 -
 - How does said job feed into your work?
 -

Vocation:

- **My Work** (Worship: to show worthiness) → work is a consequence of the Fall which was the deception of the accuser who wished to judge what is Good and Evil rather than impose the law of the eternal Judge (God). Therefore worship was the original call and work is the consequence of trying to be a judge rather than righteousness itself.
