**San Antonio Math Include**

Tanish is part of the class of 2025 at Clark High School. His interests revolve around the fascinating world of science, mathematics, and technology. He is passionate about exploring the mysteries of the universe, solving complex mathematical challenges, and building innovative robots. These topics not only captured his curiosity but also motivated him to excel academically, and his interest in technology continued to grow. In addition to classes, he is an active member of the Robotics Club, where he has the opportunity to apply his building skills to create innovative robots, and he is also involved in the Business Professionals of America (BPA), where he contributes to community service initiatives, develops leadership skills and participates in various projects and competitions. In addition, he also finds great joy in teaching and helping his younger brother with his homework. In his free time, he enjoys volunteering at a local food bank. Having aspirations to specialize in aerospace engineering, he looks forward to further developing his skills and knowledge. In the future, he plans to become a member of the National Honour Society (NHS), where he will continue to contribute to community service initiatives and develop leadership skills while continuing his exciting journey in the field of aerospace engineering.
