

1.9.23

The Curriculum Committee Chair will give an update on the minutes and next steps to the board.

The committee heard presentations from Title 1 and our three technology Integrators. They shared Title 1 Family nights which are back in person and the ways they are providing interventions for K-5 students.

Our Tech Integrators shared examples of the work they provide in the classrooms and behind the scenes - they have restructured to provide a prime example of working together and teamwork to meet the needs of staff and students.

We also had an update on handwriting from a K teacher at RES and the impact of the professional development provided by partnering with our OT staff..

Next Month -February 6th - the committee will hear from The ELA Curriculum Team and the work they are doing to review and adopt the new ELA learning results standards.
