

MUSIC THEORY H

Enrollment Based

7271

1 unit

11,12

Prerequisite – Ability to read music and teacher recommendation

Students learn basic fundamentals of harmonic techniques, interval recognition, melodic and simple harmonic dictation, simple keyboard harmony, and elements of composing. A survey is made of music history and music literature. The course is college preparatory for a student intending to major in music. Successful completion of the course may allow the student an advanced placement standing in college music theory courses.
