

This is a **non-comprehensive** list of **Trans and Non-binary** MM Romance/Erotica Authors.

"Trans" as a label here is defined as: *encompassing people who do not wholly identify with the gender they were assigned at birth. This includes but is not limited to transgender/sexual, nonbinary, genderqueer, gender-fluid, agender, and gender non-conforming identities.*

To qualify to be on this list, the author must have one published MM work (anthologies count, fanfic does not). They may have other books of various pairings.

Obviously, you can't just expect an author to share their gender identity with you, but these are authors who have been open about this on social media that I am aware of. I always advise, regardless of name or appearance, to not just assume someone's identity. There are definitely more authors out there beyond this list. Still, it's a good start if you really think there aren't many at all.
