

Without VPN:

A screenshot of a web browser window. The address bar shows the URL "prism.si.edu". Below the address bar, there are several open tabs: "Apps", "webTA: Login", "SI Password Change", "SI VPN Manager", "Employee Personal...", and "Harvard University-...". The main content area of the browser is dark gray and displays a white icon of a document with a red 'X' on it. Below the icon, the text "This site can't be reached" is displayed in a large, bold, white font. Underneath that, in a smaller white font, it says "prism.si.edu's server IP address could not be found." and "DNS_PROBE_FINISHED_NXDOMAIN". At the bottom right of the error message area, there is a light blue button with the text "Reload" in white. At the very bottom of the browser window, a small portion of a chat window is visible, showing a message that says "Hi, Shaun! I forgot to ask about getti".

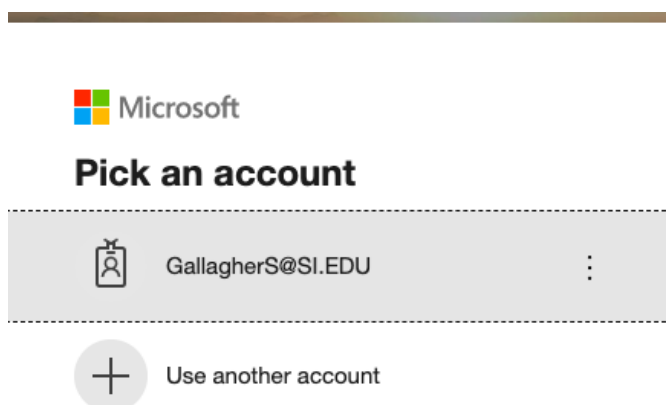

With VPN:

When you are on the CfA wired network or connected with VPN and try to connect to internal resources, you will be presented with a Microsoft Sign in window. This account is the same username and password that you use for other SI resources such as WebTA or VPN.

If this is your first time trying to login, your screen will show the box below. Enter your SI username, followed by **@si.edu** In most cases, your username is your last name followed by your first name's initial. Ex. X User , userx@si.edu

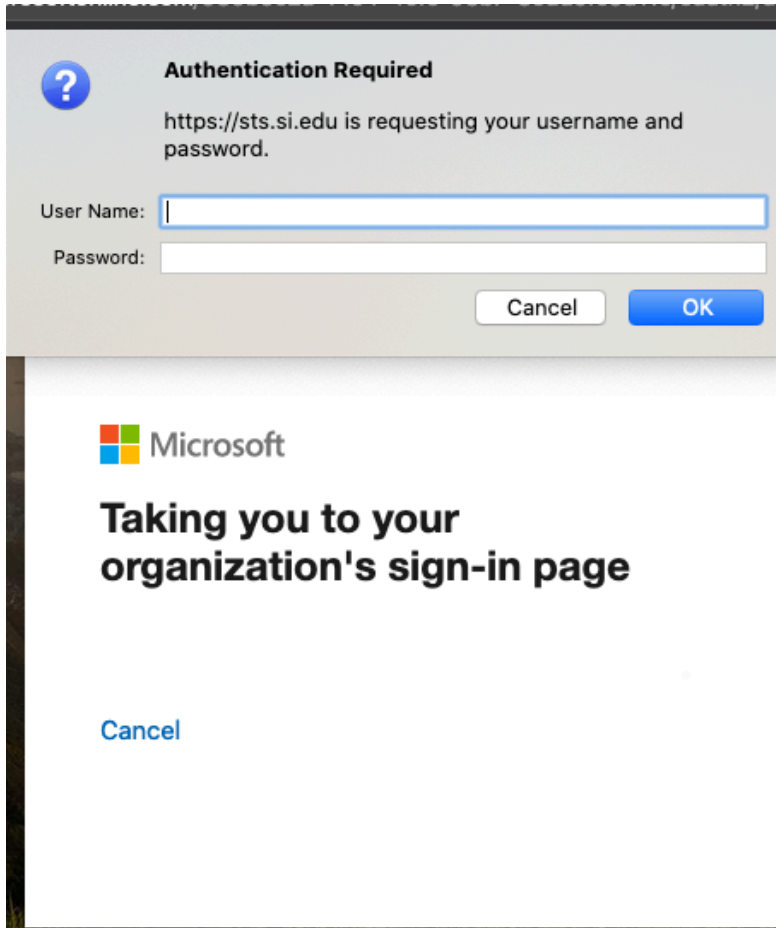

If you have logged into Sharepoint already from this browser, you can choose your @si.edu account from the "Pick an account" list and continue.

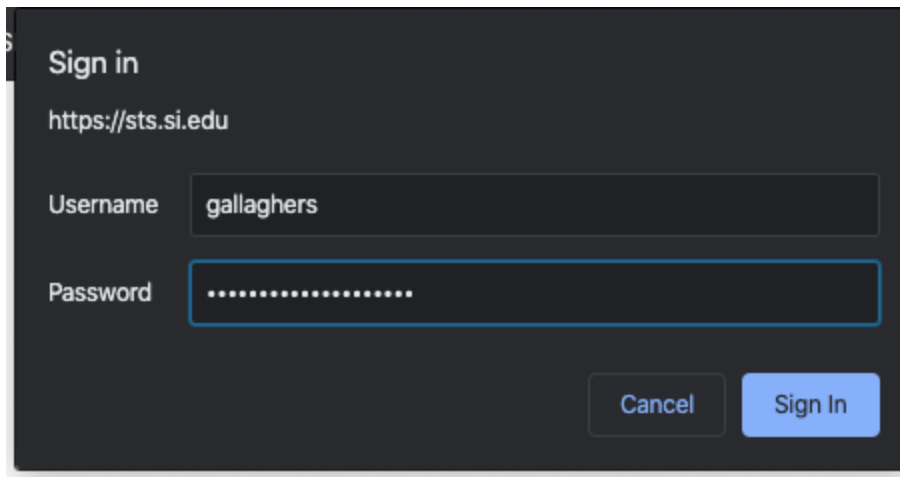

You will now be redirected to SI for authentication. Once again you will use your WebTA/VPN username followed by **@si.edu**

Firefox:

Chrome:

A dark-themed sign-in dialog box from SharePoint. It features the text "Sign in" at the top, followed by the URL "https://sts.si.edu". Below this are two input fields: "Username" containing the text "gallaghers" and "Password" containing a series of dots. At the bottom right, there are two buttons: "Cancel" and "Sign In".

After now authenticating with SI, you will be directed into PRISM.
