Room: 1141

Department: Student Success/Alternative Education

Email: ksschultz@kimberly.k12.wi.us

Voicemail: 920-687-3024 ext. 20284

Hello, my name is Kelly Schultz and this will be my fourth year at Kimberly High School. I am one of the teachers in the Alternative Education/Student Success Lab Department. I will be working with students in a variety of ways to achieve academic success; so that they achieve their personal goals and graduate with skills & confidence that will carry on into the future. I will be teaching Freshman Seminar English, co-teaching English 9 with Mrs. Paruch, and co-teaching Physical Science with Mrs. Dollevoet and Mr. Holtien.

Prior to teaching at Kimberly High School, I was a Special Education Teacher in the Appleton Area School District. I taught at both the middle and high school levels for 22 years, most recently at Appleton East and Appleton North. In my previous role, I focused on students with academic and emotional needs, as well as I co-taught numerous subjects working with students in grades 9-12.

In addition to being a KHS staff member, I have been a Kimberly parent for many years. I have three children. Two of my children have already graduated from Kimberly High School, and I have a son who currently attends Kimberly High School. My husband and I have been involved in Kimberly academics and athletics & co-curriculars with our children for many years.

As an educator my goal is to make each student feel valued and help them achieve success academically, socially, and emotionally. Making connections to students and families is a top priority for me. I look forward to meeting students and families this school year.

Freshman Seminar Class Supplies Needed:

- Computer Device
- Pen/Pencils/Paper (Loose Leaf or Notebook)
