Student Body,

I have always embraced the idea of “Student Voice” and believe everyone at WHS has the ability to be a change agent. Why not use your voice to make WHS a better place, the Walldwick community a better place and even the world. **WHY NOT YOU!**

There is a lot going on in the world that makes it tough to be a teenager now a days. I want to make sure I am there to support you in anyway possible. I need and want to do more for all of you!

Last week I spoke at the Student Council meeting about the recent school shooting in Florida and how students at that school and around the country have started a revolution. It just can't be the Student Council members, I need to include everyone that wants to be heard and be involved.

So .... on Monday during common lunch there will be a Student Voice meeting at 11:25 in the Little Theater. All are invited. I hope this is the first of many meetings involving this group that want their voice to be heard.

**Spread the word!**

### **Agenda**

School Violence Movement (National Level)

School Issues (Local Level)
