

# Art Commission Info

## Aka what am I open for?

Hello! If you're reading this you're probably interested in commissioning me for art! This document is just a way for me to show what I am open for, examples, and prices.

I do encourage you to look at my TOS for more information before you contact me for a commission though! It can be found in my linktree.

The prices are listed in USD and do not include tax.

Thank you.

Note: Complex characters and backgrounds may increase the price of the commission. Extra characters will add one half of the price of the price per character (i.e, \$10 for one character, \$15 for two, \$20 for 3 etc.)

“Flat” means the final image will not be shaded or be very lightly shaded.

“Shaded” means the final image will be fully rendered.

### Headshots: OPEN

Just the head of a character, usually shoulders up, can be used for a profile pic, a small badge, or it can just be cute art.

Flat: \$30

Shaded: \$35

**Busts: OPEN**

Waist up, good for bigger badges or showing off simple poses.

Flat: \$35

Shaded: \$45

**Full body: OPEN**

The whole character. Great for dynamic poses or scenes.

### Telegram stickers: OPEN

Stickers for the telegram app that can show off your mood! These will be flat by default. (I will have base packs available soon)

\$15 for a single sticker, or \$75 for a pack of six!

### **Icons: OPEN**

Great for if you need a logo for your content.

Price will vary

### **Arcade carpet designs: CLOSED**

Give me a prompt or character and I'll spit out a retro design for you. Great for if you need a background or funky design for a banner image. Note that these do require a lot of feedback.

\$35

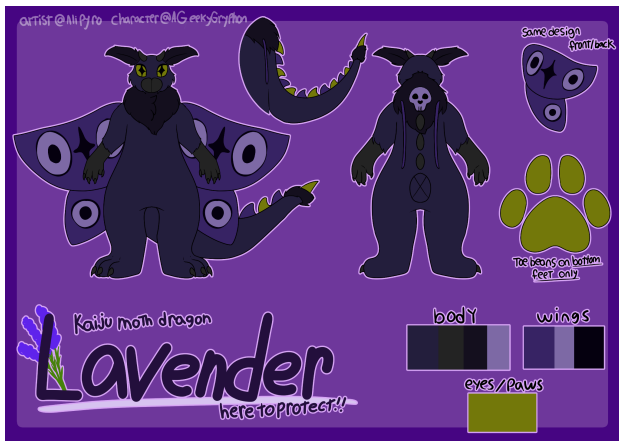

### **Reference sheet: CLOSED**

Do you need a reference sheet to commission more art or a fursuit? This is for you. By default these will be flat. Comes with 2-3 views of the body and up to three closeups of certain details of your choosing (head, maw, paw, etc.) Note that the price might change depending on how complex the character is.

Front and back: \$80

Three view: \$120

### Species Swap/ character design : OPEN

Do you ever wonder what your fursona would look like as a different species? Maybe you're stuck on a design for an oc and you want someone to capture a vibe. This option is perfect for you then!

Price varies based on how complete you'd like the design, for example a simple sketch will be more like \$25-30 while a full on ref sheet may be closer to \$80-120

### **Drawovers: CLOSED**

Reality is boring. Sometimes you just need to add your OC to your images to spice things up. You will need to provide your own image, please try to keep them high quality. These are shaded by default.

Price will vary.
