

Presentation tujiunge

Full Name: LUSAMBYA MWENEYAKE Delu

Email Address: lbasdelus@yahoo.fr, jmlddrc@yahoo.fr

Affiliation: Jeunes Méthodistes Libre pour le Développement

Title of Presentation: **Presentation of "tujiunge" activities**

A detailed abstract:

Tujiunge is a computer resource centre of 10 computers connected to the Internet for grouping, sharing and publication of information related to violence against women in the community of Uvira territory, province of South Kivu, Eastern DR Congo.

The Eastern DR Congo, especially the Uvira territory is a region where violence against women is rampant due to ongoing political instability and armed groups based in the region. The center is designed to give women access to information, education and support services via the Internet to help them cope with violent situations in the Uvira community. During the meeting, I would like to present to the community how we help young girls and survival to use the Internet for coping with violence. More information about this activity is available [here](#).

You can read the report about the project at: <http://www.internetsociety.org/tujiunge-unissons-nous-pour-la-disponibilisation-de-linformation-%C3%A0-la-communaut%C3%A9-duvira> .

You can also look at a blog produced by ISOC on the project at: http://www.huffingtonpost.com/kathy-brown/10-great-ways-the-internet-b_6817738.html .

You can also find my short biography at: <http://www.jmld-asbl.org/contact.html>

Short biography

Coordinator of JMLD. Graduate in rural development, peace building and he has a masters in international development. He is a former project manager within the Arche d'Alliance NGO, International Youth Fellowship, ADIC, CAGL, CAPH and ADED with a passion and strong commitment to the promotion of youth leadership. His experiences and success story made him a useful man for the development and promotion of peace in South Kivu, Eastern DR Congo.
