Join me and hundreds of others around the San Diego community for a Virtual Climate Uprising for Earth Day, 4/22/20. There will be various workshops, local speakers, and activities for all; to raise awareness and demand change for our delicate planet. Together we can make a difference, repost, share, and use the hashtags **#ClimateUprisingSD** to spread the word and participate using **@climateuprisingsd**

Since we are combating this crisis individually, join me on 4/22/20 to virtually unite with one another to stand up for what we believe in. Everyone – and every industry – must do their part to stop the coronavirus pandemic and the longer-term disaster of the climate crisis. Industries receiving billions of dollars in pandemic bail-outs must commit to keep fossil fuels in the ground and shift to 100% renewable energy. It is critical that everyone who wants to see change does what is in their power, so spread the word using **#ClimateUprisingSD** and participate using **@climateuprisingsd**

Together, San Diegans must demand a greener future. Our priorities for our community are clean energy + green jobs, affordable mass transit and green options for communities that need it most, a more aggressive and accountable plan to get to 100% sustainable energy and lastly we must keep fossil fuels in the ground. In order to see these changes in our city, we have to come together and let our voices be heard. Join me and hundreds of others around the San Diego community for a Virtual Climate Uprising for Earth day, 4/22/20. Together we can make a difference, repost, share, and use the hashtags **#ClimateUprisingSD** to spread the word and participate using **@climateuprisingsd**
