Biography/ Candidate Statement (usually 600-word limit):

I am a planning/economic development professional, having spent 30 years, mostly in the st louis metro market, working on both sides of the planning/economic development divide. I am seeking another term on the board because as before, I've attended a great many chapter events, meetings, and trainings, and I would like to help the board with facilitating these activities. I am also fiercely committed to the future of st. louis, and I see working with my colleagues on this board as one means of building that future.
