Papa's Burgeria Deluxe

Papa's Burgeria Deluxe is the third Deluxe game in the Papa Louie restaurant time-management game series.

Description

Papa's Burgeria is now available to play in a deluxe fashion, with gameplay and controls reimagined for Bigger Screens, Grill, stack, Fill the drinks, and serve burgers in a brand-new way!

You're left in charge of Papa Louie's famous Burgeria, where you'll learn to take orders, grill patties, add toppings, serve drinks, and serve burgers to all of your crazy customers. You need to multitask between each area of the restaurant, with new controls that feel just right in the

palm of your hand: Head to the Order Station to keep an eye out for customers waiting in the lobby. Switch to the Grill Station to drag patties onto the grill and flip burgers to cook them evenly. Jump to the Build Station to carefully craft your sandwiches with toppings and sauces exactly how they ordered, and deliver the finished burger to earn points and tips!

Keep your customers happy to earn more points and level up. As your level rises, you'll unlock new toppings in the shop, and new customers will start visiting the Burgeria! Papa's Burgeria Deluxe also features unlockable ingredients that aren't available in previous versions!

Workers

The workers in this game are Marty, Rita, the custom worker, and Papa Louie (Rank 66+ and Requires the Gang's all here sticker). With the exception of the shoes, the default uniform is identical to that of its predecessors and consists of a red and white shirt, black pants, and a black visor. Marty wears a gray belt and black and gray shoes, while Rita wears white shoes with black laces and gray soles, while the custom worker wears neither.

Custscenes:

Trivia

- This is the First deluxe game to:
 - Have Comet Con.
 - Not have the newer customers' reaction animations (Ex. raising hands cheerfully, choking on air, 2 thumbs up...), instead, each customer only has one animation per reaction:
 - Elated: Raise clenched fists with huge smile
 - Satisfied: Thumbs up
 - Unimpressed: Shrug
 - Enraged: Raise shoulders and glare.
 - However, it still uses the usual animation before those reactions since Papa's Pancakeria HD.
- Kenton can be the last customer if you use a special to rank up quickly.
- You can play as Papa Louie, but in order to play as him, you have to be rank 66 and have "The Gang's all Here" sticker.
- A few customers' looks were updated:
 - Santa's Style A reverts back to the Papa's Freezeria Deluxe one.
- Dragon's Breath is like "The Mountain Dew Baja Blast" of the Papa Louie World.

GLITCHES:

- When clicking "NEW GAME" too fast, the game seems to slow down on it's own.
- Sarah's Mouth Never Moves (she is always having a closed mouth smile) regardless of what animation act she does. This was fixed in Version 1.0.1.

NOTE

- Elle is selling her skirt and selling the cup sizes
