Free Live Webinar: EQAO Information Session

Join EQAO staff for a free live webinar to learn about the math questions that Ontario students encounter when they participate in Ontario's large-scale assessments. EQAO assessments are written by all Ontario students in Grades 3, 6 and 9. During the webinar, staff will show how the math questions help assess the skills students are learning in their math classes. Staff will also share valuable insights from the past three years of assessment results, which can help parents and guardians support their children's math learning.
