V. League Discussion:

A. North/South versus everyone together - It was voted on that going forward any age division that has at least 16 teams will be split into a north and south for regular season games.
B. League will implement the “provide and use your own game balls” method. Umpires will not be handling the balls so keep them with your pitcher and replace them yourself when they go out of play after sanitizing them.
C. A Covid form will be created for all towns to update their covid rules for their location. This form will be available on the website main page for all teams to check prior to going to away games to ensure you know what rules apply for each location.
