Tentative topics

https://github.com/GUT-profile-WG/GUT-profile/issues/

- how to encode VO-like information, how to call it -> issue 3
- sub-profiles? -> issue 5, also 13
- both groups/capabilities in one token? -> issue 4
    - maybe related to issue 2: RFC9068
    - and to issue 11: group membership for client credential clients

Informal coffee discussion on OIDC-RandE dormancy. We need them e.g. ver claim, issue 9
