

FB Ad Primary description:

Math can improve analytical thinking, problem solving skills, logical reasoning and much more. Unfortunately, 1 in 4 Children worldwide have Math learning difficulties and they suffer in silence.

(Product Name) can help Children with Math Comprehension. Don't let your Kid suffer and develop long-term learning challenges.

Stocks are selling extremely fast. Get yours now!

Creative sales copy (30 second UGC video and directly spoken by Child creator):

Hook 1: I didn't even realize I was learning Math.

Hook 2: This is my secret to good grades in Math.

Hook 3: This is the quickest way to learn Math.

Combined:

I didn't even realize I was learning Math.

(Product Name) is not just another toy, it's an educational tool that helped me with my Math Comprehension.

I played multiple games with my mom, and this boosted my confidence in Math. Now, I am performing really well in school.

I really love (Product Name).
