

## Welcome!

Mushood Munir creates fun Hyper Casual and Simulation games with ads. This Privacy Policy explains how we collect, use, and protect your information when you play our games.

## Understanding Your Information

We strive to provide a smooth gaming experience. To achieve this, we might ask for certain information to help us improve the games. This information stays on your device and isn't directly collected by us.

## Third-Party Involvement

Our games use external services that might collect data used to identify you. These services have their own privacy policies, which you can find here:

- AdMob
- Facebook
- Adcolony
- Unity Ads

## When Things Go Wrong: Log Data

If the game encounters an issue, we (through third-party tools) might collect data from your phone to diagnose the problem. This data may include your device's IP address, name, operating system, usage time, and other relevant details.

## About Cookies (We Don't Use Them Directly)

Cookies are tiny data bits used to identify your device. While our games don't use them directly, some third-party code or libraries might. You have control over these cookies - you can choose to accept or reject them, and even be notified when they're sent.

## Our Partners: Helping Us Improve

Sometimes, we collaborate with other companies to provide you with the best gaming experience. These trusted partners may have access to your information only to perform specific tasks for us. They are strictly prohibited from using or disclosing your data for any other purpose.

## Keeping Your Information Safe

We take your privacy seriously and use industry-standard security measures to protect your information. However, no online method is foolproof, so we cannot guarantee absolute security.

## Exploring Beyond Our Games: Links to Other Sites

Our games might contain links to other websites. Remember, these sites have their own privacy policies, and we are not responsible for their content or practices. We encourage you to review their policies before visiting those sites.

### **Children's Privacy (Important!)**

Our games are not intended for children under 13. We do not knowingly collect personal information from them. If we learn that a child under 13 has provided us with information, we will promptly delete it. If you are a parent or guardian and believe your child has shared information with us, please contact us so we can take action.

### **Updates to this Policy**

We may occasionally update this Privacy Policy. Please revisit this page regularly to stay informed. We will notify you of significant changes by posting the updated policy here.
