

4000 SERIES/PERSONNEL**RECRUITMENT AND SELECTION OF STAFF**

The Board desires the Superintendent to develop and maintain a recruitment program designed to attract and hold the best possible personnel who are "effective teachers" as defined by federal law in the District's schools. All District teachers must meet applicable state certification and licensure requirements, including any requirements for certification obtained through alternate routes to certification.

The school district recognizes the heterogeneity of the people who live in the school district and believes that this characteristic should have an important bearing on all aspects of the school district's activities.

The Board of Education believes it is especially important that this heterogeneity of population be recognized in the recruitment and assignment of personnel.

To this end, the Board of Education shall develop and implement a written plan for minority staff recruitment. The administration is directed to make a serious effort to see that the recruitment procedures of the district produce a total staff representative of the total population of the district and that the assignment procedures of the district bring to each school staff members representative of the population represented by the student membership in each local school.

The schools shall engage in fair and sound personnel practices in the appointment of all district employees. The administration shall be responsible for establishing recruitment, selection and appointment procedures.

The Board wishes to avoid the appearance of cronyism in its hiring practices. "Cronyism" is defined as "the giving of special treatment, preference, jobs, political appointments, or contracts to people who are friends, donors, or political cohorts rather than to people based on their abilities or qualifications."

On the application form, an applicant for any position in the school district shall disclose any previous relationship with the Superintendent or any Board member. Previous relationships will include any business, financial, personal, political or family connections. This will also include school relationships such as knowing the individual in high school, college, or graduate school.

The Superintendent shall provide the Board with full disclosure of any prior knowledge or relationship with any candidate recommended for employment.

The Superintendent shall insure that the District is in compliance with the provisions of Title I and the Every Student Succeeds Act. Manuals and handbooks shall comply with federal law as to the qualifications for instructional personnel. Parents/guardians of students in Title I schools shall be informed annually, at the beginning of each school year, of their right to request information about whether their child's teacher has met state qualifications and licensing criteria for the grade levels and subject areas in which the teacher provides instruction; is teaching under emergency or other provisional status through which state qualifications or licensing criteria have been waived; and is teaching in the field of discipline of the certification of the teacher. The qualifications of services provided by paraprofessionals shall also be provided. Timely notices shall also be provided to parents/guardians that the student has been assigned, or has been taught in a Title I school for

4 or more consecutive weeks by a teacher who does not meet applicable state certification or licensure requirements at the grade level and subject area in which the teacher has been assigned.

The Board of Education authorizes the Superintendent to employ teachers. (A Superintendent not authorized to employ teachers will submit to the Board of Education nominations for individuals to be hired by Board action. Boards shall accept or reject such nominations not later than thirty-five (35) calendar days from such submission.)

Hiring of Retired Teachers

A retired teacher receiving benefits from the Teachers Retirement Board (TRB) may be reemployed by the Board for up to one full school year in a position (1) designated by the Commissioner of Education as a subject shortage area, or (2) at a school located in a priority school district for the school year in which the teacher is being employed. Such employment may be for up to one full school year. Such reemployment may be extended for an additional school year, provided the Board (a) submits a written request for approval to the Teachers' Retirement Board, (b) certifies that no qualified candidates are available prior to the reemployment of such teacher and (c) indicates the type of assignment to be performed, the anticipated date of rehire and the expected duration of the assignment.

Except as indicated above, a certified educator receiving retirement benefits from the Teachers Retirement Board (TRB) may not be employed in a certified position receiving compensation paid out of public money appropriated for school purposes except that such educator may be employed in such a position and receive no more than forty-five percent of the maximum salary level for the assigned position. Any certified educator who receives in excess of such amount shall reimburse the Board for the amount of such excess. Fringe benefits offered by the District, if taken by the employed retired individuals, are included in the maximum compensation. The individual can continue to pay TRB for health insurance as a retired member in the same manner as prior to the post retirement employment. (Health insurance from the Board is not legally required to be offered.)

The forty-five percent limitation applies, as described above, if the retired teacher described in this paragraph, works in excess of two years in either a subject shortage area and/or in a school in a priority school district.

The salary of such teacher shall be fixed at an amount at least equal to that paid other teachers in the District with similar training and experience for the same type of service.

Note: TRB has indicated that a six month break in service is required before a retired teacher, who has retired before age 62 or normal retirement (20 years of service and age 60 or 35 years of service) can be reemployed by any Connecticut school district.
