 - It's easier to incorporate facial expression alts if I'm notified in advance.
- Complex characters, backgrounds, or compositions may cost extra.

WHAT I CAN AND CAN'T DRAW

I like drawing muscles, cute guys, and cute guys with muscles! (Nsfw is good too!)

I **WON'T** draw female/feminine characters, morbidly obese characters, scat etc.

If you have questions on whether or not I'll draw something, don't be afraid to ask! I don't judge!

If you want a type of drawing that isn't presented in the above two images, let me know. (For example, if you don't need me to render the drawing completely, or if you liked the rendering style in another one of my drawings!)

PROCESS

1. Send me a message on any of my social media: Discord, Telegram, FA, bsky, Xwitter
2. We work out any questions either of us have.
3. I'll draft a sketch and send it to you.
4. If there are no issues, send in the full payment through paypal.
(Otherwise, I'll rework the draft.)
(If invoice is not possible, pay with goods and services payment, and do NOT write anything nsfw in the description.)
5. I'll work on the commission and send you the wips.
 - a. You can request up to 2 changes per commission (with the exception of egregious anatomy mistakes).
6. Repeat step 5 until the drawing is complete!

DISCLAIMERS

I may upload your commission to my social media (FA, Xwitter, etc.) and use it as an example for future commissions. You are also free to upload to your own social media!

Large scale changes in the drawing won't be possible too far in the process. Don't be afraid to ask for changes, because it's better early than later!

If I need to meet a particular deadline please tell me right away. I will try my best to work diligently, but rendering takes a lot of time.

I reserve the right to deny any commission request.
