STORY TIME - ROCKET THE RACCOON
 Before the store opening, the raccoons roam across the UCR residential communities wandering about being fed by the residents of bits and pieces of Glasgow cookies. One day a raccoon named Rocket, first of his name, wanted a job and saw that a brand-new Thrift Store was opening up in Lothian. He met with the owner Luna, to discuss a potential job and due to his knowledge about food sustainability, she offered him the position of the Thrift Store's nighttime manager. He now works in the NRHH Office doing administrative work like Starrez and spreadsheets for the store and occasionally acting as security. So, if you see the store at night make sure to say hello to Rocket.
