

### Card №16. Tourism

1. How do you prefer to travel?	There are a lot of ways of travelling. People can travel by car, by plane, by ship, by train, by coach or on foot. Travelling by plane is the fastest way of travelling but it is rather expensive. Modern trains are also rather comfortable and travelling by train is convenient and cheap. Travelling by coach is rather cheap, but I wouldn't say it's very comfortable. My favourite way of travelling is travelling by car. I think this is one of the most comfortable means of travelling. You can enjoy the view looking through the window and this way of travelling is rather fast. You can travel to different cities and towns of your native country and even abroad. And you can stop whenever you want and drop in any place you like.
2. Do you bring home souvenirs from your trips? Why or why not?	Yes, I do. I like bringing souvenirs from my trips. When I see them they remind me of the places I had visited and of emotions I had experienced.
You are going on a trip around England. What questions will you ask your British friends?	What places of interest would you recommend me to visit? Where should I stop to make accommodation cheap? What national dishes would you recommend me to taste? What is the best way to get to Britain from Belarus?
Your Belarusian friend will spend his/her summer vacation in Great Britain. Give him/her a piece of advice on how to organize the trip.	You should plan your trip carefully and consider all the details. You should visit the main tourist attractions: Westminster Abbey, the Houses of Parliament, Big Ben, The Tower of London, Windsor Palace. Take comfortable shoes and warm clothes: it is usually wet and cool.
Every country should encourage and promote tourism. What do you think about it?	Travelling nowadays has become an important part of modern life. Millions of people all over the world travel about their own countries and to foreign lands as well. People travel to visit natural destinations such as seas, lakes, rivers, mountain ranges, deserts and so on. It's always interesting to discover new things and other ways of life, to meet different people, taste different food, examine various architectural styles, visit museums and picture galleries. It's common knowledge that travelling is a key to understanding other cultures and a wonderful opportunity to learn more about the world we live in.
